MCM General Manager Mr. Edwin T. Elias hosted Botswana Oil Limited Chief Executive Officer, Mr. Meshack Tshekedi and his executive team to share business insights and engage on current business developments. The team also got the opportunity to tour and appreciate various sites of the Motheo Project open cast mine such as the open pit and plant and get a better understanding of the new operations.

The MCM team travelled to Orapa with the purpose of benchmarking on the Fatal Risk Control Standard (FRCS) lab which is used as a teaching aid and for improvement of understanding of the control standard. The other facility visited is the Diamond Museum which is a greater component of OLDLM Closure Plan Vision tag lined: Orapa Today, Boteti Tomorrow.
