As part of our stewardship towards the environment, this week the SHE team continued with the keep Palapye clean campaign. This is a multi-sectorial program led by Palapye Administrative Authority to conduct clean-ups in Palapye. This week's installment was held at Khurumela ward, with last quarter's activity led Morupule Coal Mine held in Serorome ward.

MCM Lab and Plant sections hosted the Department of Chemical, Materials and Metallurgical Engineering from BIUST on a working visit as the latter is currently undertaking a wide range of research projects on coal beneficiation. The projects include pyrolysis of coal, coal gasification, production of metallurgical coke and production of activated carbon.

This week Communications and Clinic section partnered to rollout the incentives that are meant to recognize the laudable act taken by those who are fully COVID-19 vaccinated. MCM management further encourage those who have not yet vaccinated to do so at their earliest convenience. As the pandemic continues, we need to take utmost restraint to protect ourselves, families and the community. **# I AM ACCOUNTABLE; I AM COVID-19 VACCINATED.**

PREVENTION OF
CORONAVIRUS

USE FACE MASK

CLEAN & DISINFECT

WASH YOUR HANDS
FREQUENTLY

KEEP DISTANCE
FROM OTHERS

AVOID TOUCHING
EYES, NOSE OR MOUTH

STAY AT HOME
WHEN YOU ARE SICK
