As an organizational improvement initiative, Management in liaison with invited employees embarked on a Visible Felt Leadership walkabout in the Mine work areas. This is aimed at engaging directly with employees on the challenges they face and get ideas from them which they think can help improve the organization going forward. The other reason is to help revive their vigilance on safe work, unsafe conditions to eliminate chances of accidents.

Captured on site: Unveiling of the MCM Game Park logo which depicts a silhouette of an eland. The eland is one of the most endangered species in the world and currently the biggest game animal found in the MCM park.
